

TechNova Solutions Pvt. Ltd.

IT Department

IT Knowledge Base v2.1

Internal Use Only

1. Password Reset

Passwords expire every 90 days. Use the Self-Service Password Portal or contact the IT Helpdesk.

2. VPN

Install SecureConnect VPN. Verify internet connectivity before connecting. MFA is mandatory.

3. Outlook

If Outlook is not syncing, restart Outlook, verify internet access, repair the profile, or recreate the OST cache.

4. Microsoft Teams

Check microphone permissions, update Teams, and restart the application.

5. Laptop Performance

Restart weekly, keep at least 20% disk free, remove unused software, and install Windows updates.

6. Software Installation

Approved software may be installed through the Company Software Center. Admin rights require manager approval.

7. OneDrive

Ensure you're signed in with your company account. Pause/resume sync if files are stuck.

8. Printer

Verify network connectivity, reinstall drivers, and ensure the printer is online.

9. Wi-Fi

Connect only to TechNova-Corp Wi-Fi using company credentials.

10. IT Helpdesk

Email: ithelp@technova.example | Phone: +91-40-5555-1000 | Working Hours: Mon-Fri 8 AM-8 PM

Issue	First Action	Escalate After
VPN not connecting	Reconnect & verify MFA	15 min
Outlook not syncing	Repair profile	30 min
Laptop slow	Restart & cleanup	1 hour
Teams audio issue	Check device settings	30 min
Printer offline	Reconnect network	20 min

FAQs

Q. My VPN is connected but applications are unreachable.

A. Disconnect, reconnect, then flush DNS and retry.

Q. How do I install Python?

A. Submit a software request through the IT portal if it is not available in the Software Center.

Q. Who unlocks my account?

A. Use the self-service portal or contact the IT Helpdesk.
